

Steel Conduit. Get wired for the future.

**Steel Tube
Institute**
OF NORTH AMERICA

Steel conduit provides the best protection now and into the 21st Century. Here's a list of some of its advantages:

- **EMI shielding**
- **Physical protection of conductors**
- **Equipment Grounding Conductor**
- **Non-combustible**
- **Low coefficient of expansion**
- **Chemical compatibility (concrete)**
- **Recyclability**
- **Impact resistance/high tensile strength**
- **Adaptable to future wiring changes**
- **Lower life-cycle costs**

**Steel Conduit.
The EMI
Defense Shield.**

**EMI.
